End User Licence Agreement (EULA) – Wolfie.app

Version 1.1 · Effective date: 12 November 2026

This End User Licence Agreement (the "**EULA**") is published in English and in Polish. Both language versions are equally binding (see section 27).

---

1. Introduction and acceptance

1.1. This EULA is a legally binding agreement between you ("**you**", the "**End User**") and the Developer named in section 2 ("**we**", "**us**", the "**Developer**"). It governs your licence to use the Wolfie.app software application, in every form in which we make it available — the iOS and iPadOS app distributed through the Apple App Store, the Android app distributed through Google Play, and the web application at app.wolfie.app — together with its updates, upgrades and any content made available through it (together, the "**Licensed Application**").

1.2. By downloading, installing, opening or using the Licensed Application you accept this EULA. If you do not accept it, do not download, install or use the Licensed Application, and delete any copy you have installed.

1.3. The online service that the Licensed Application gives you access to — your account, cloud storage, subscriptions, AI features, Community, the kennel and breeder tools (Wolfie.app Pro) and the public pages published at wolfie.page (the "**Service**") — is provided under our **Terms of Service** (https://wolfie.app/en/docs/terms-of-service, the "**Terms**"). How we process personal data is described in our **Privacy Policy** (https://wolfie.app/en/docs/privacy-policy). Section 4 explains how these documents fit together.

---

2. Developer name and contact details

2.1. The Licensed Application is developed and provided by:

Blanik.dev — Amadeusz Blanik
Sole trader (jednoosobowa działalność gospodarcza), Poland, European Union
Tax ID (NIP): PL6472574467
Email: amadeusz@blanik.dev
Support: contact@wolfie.app

Wolfie.app (wolfie.app) is a product of Blanik.dev.

2.2. Please direct any questions, complaints or claims regarding the Licensed Application to the Developer at either of the email addresses above. We answer complaints without undue delay and no later than 14 days after receiving them.

---

3. Acknowledgement

3.1. You and the Developer acknowledge that this EULA is concluded between you and the Developer only, and **not with Apple Inc.** (“**Apple**”) or Google LLC / Google Ireland Limited (“**Google**”).

3.2. The Developer, not Apple or Google, is solely responsible for the Licensed Application and its content.

3.3. This EULA does not provide for usage rules that conflict with the Apple Media Services Terms and Conditions as of the effective date of this EULA, which you acknowledge you have had the opportunity to review. If you obtained the Licensed Application from the Apple App Store and any provision of this EULA is less restrictive than, or conflicts with, those Usage Rules, the Usage Rules prevail for that copy of the Licensed Application.

3.4. If you obtained the Licensed Application from Google Play, the Google Play Terms of Service and Google Play's policies also apply to your download and to purchases you make there. Google is not a party to this EULA and has no obligations under it.

---

4. Relationship to the Terms of Service and the Privacy Policy

4.1. This EULA governs the **licence to use the Licensed Application** as software, and the terms that the app stores require. The **Terms** govern the **Service** — your account, subscriptions and payments, AI features, acceptable use, user content, Community and the kennel and breeder tools. The **Privacy Policy** governs the processing of **personal data**.

4.2. If this EULA and the Terms conflict, this EULA prevails for the licence to use the Licensed Application and for the matters in sections 3, 5, 15 to 21 (the app-store terms), and the Terms prevail for everything concerning the Service. If either of them conflicts with the Privacy Policy on how personal data is processed, the Privacy Policy prevails.

4.3. Nothing in this EULA, the Terms or the Privacy Policy limits any right that you have as a consumer under mandatory law (see section 23).

---

5. Scope of licence

5.1. Subject to this EULA, the Developer grants you a limited, non-exclusive, **non-transferable**, revocable licence to install and use the Licensed Application for its intended purpose.

5.2. **Apple devices.** If you obtained the Licensed Application from the Apple App Store, the licence is a non-transferable licence to use the Licensed Application on any Apple-branded products that you own or control and as permitted by the Usage Rules set out in the Apple Media Services Terms and Conditions, except that the Licensed Application may be accessed and used by other accounts associated with you as the purchaser via Family Sharing or volume purchasing.

5.3. **Android devices.** If you obtained the Licensed Application from Google Play, you may install and use it on Android devices that you own or control, as permitted by the Google Play Terms of Service.

5.4. **Web.** You may use the web application at app.wolfie.app in a current web browser on any device that you own or control.

5.5. **Personal and business use.** You may use the Licensed Application for your own personal purposes. Breeders and kennels may also use it for their own breeding and kennel business, including through Wolfie.app Pro, in

accordance with the Terms. Any other commercial use requires our prior written consent.

5.6. The licence covers the Licensed Application only. It gives you no ownership of it and no right to any of our trade marks, names or logos.

---

6. Licence restrictions

6.1. Except as permitted by this EULA, the app-store rules referred to in section 5 or mandatory law, you must not:

- copy, modify, translate or create derivative works of the Licensed Application;
- rent, lease, lend, sell, sublicense, redistribute or otherwise transfer the Licensed Application, or make it available over a network to devices you do not own or control;
- decompile, disassemble, reverse engineer or attempt to derive the source code of the Licensed Application, except to the extent that this is permitted by mandatory law (in particular to achieve interoperability under Article 6 of Directive 2009/24/EC and Article 75(2)–(3) of the Polish Act on Copyright and Related Rights);
- remove, obscure or alter any copyright, trade mark or other proprietary notice, including the attributions of map data and other third-party content;
- circumvent or interfere with any security, authentication, usage limit (including AI usage limits) or entitlement check;
- access the Service by automated means (bots, scrapers, crawlers) other than those that we expressly allow, or place an unreasonable load on our infrastructure;
- use the Licensed Application to break the law, infringe anyone's rights, or harm animals or people.

6.2. All rights not expressly granted to you are reserved by the Developer and its licensors.

---

7. Eligibility and accounts

7.1. You must be at least 16 years old, or the higher minimum age required by the law that applies to you, to use the Licensed Application, as set out in the Terms.

7.2. Some features require an account. You are responsible for keeping your sign-in credentials secure and for the activity under your account. You may delete your account at any time from the Licensed Application or at https://app.wolfie.app/settings/delete-account. What happens to your data and your pets' records when you delete your account is described in the Licensed Application and in the Privacy Policy.

---

8. Subscriptions and in-app purchases

8.1. **Wolfie.app Premium in the apps.** Wolfie.app Premium and other in-app purchases made in the iOS, iPadOS or Android app are sold and billed by Apple (App Store In-App Purchase) or Google (Google Play Billing) under their terms. Prices, billing periods (for example monthly, quarterly or yearly), whether a purchase is a subscription or a one-time lifetime purchase, and any free trial are shown in the app and in the store before you buy.

8.2. **Auto-renewal and cancellation.** Subscriptions renew automatically at the end of each billing period unless you cancel at least 24 hours before the period ends (or within the deadline set by the store). You can manage or cancel a subscription bought in an app only in your Apple ID or Google account subscription settings, and a subscription bought on the web in Billing on app.wolfie.app; deleting the Licensed Application or your Wolfie account does **not** cancel a store subscription. After cancellation you keep access until the end of the period you have paid for. A lifetime purchase is paid once and does not renew; it gives access to the plan it was bought for for as long as the Service is provided and your account exists, and sections 8.3 and 8.4 apply to it as to a subscription.

8.3. **Refunds for store purchases.** Refunds for purchases made through the Apple App Store or Google Play are decided and paid by Apple or Google under

their refund policies; we cannot issue them ourselves. Your statutory rights as a consumer are not affected (section 23).

8.4. **Restoring purchases and subscription transfers.** In-app subscriptions and other in-app purchases are linked to the store account (Apple ID or Google account) that paid for them, not to your Wolfie account. If a different Wolfie user signs in on the same device while the original purchasing store account remains signed in and uses the platform's “Restore Purchases” function, the active entitlement may be transferred from the original Wolfie account to the restoring Wolfie account. When this happens, the original Wolfie account loses access to the paid features and the restoring Wolfie account receives it; only one Wolfie account holds the entitlement at a time. Billing continues from the store account that originally made the purchase until the subscription is cancelled in that store account's settings. You are responsible for protecting access to the store account associated with your purchase.

8.5. **Wolfie.app Pro.** Wolfie.app Pro, the kennel and breeder plan, can be bought in the iOS, iPadOS or Android app or on the web. When bought in an app, it is sold and billed by Apple or Google, and sections 8.1–8.4 apply to it as to any other in-app subscription. When bought on the web, it is purchased under the Terms and the conditions shown at the time of purchase and is billed through RevenueCat Billing by our web payment provider (Stripe), not by Apple or Google. In either case, this EULA governs the licence to use the Licensed Application and the Terms govern the Pro plan.

8.6. Free and paid features, and their limits — including the limits of a kennel on the Free plan, the kennel trial and what happens when Pro ends — are described in the Terms and may change as described there. A change does not reduce what you have already paid for during the current billing period, or what a lifetime purchase includes for the plan it was bought for.

---

9. Your content and Community

9.1. **Your content stays yours.** You keep ownership of the content you enter into the Licensed Application — your pets' records, photos, documents, notes, messages, kennel and litter information, pedigrees and posts (“**Your Content**”).

9.2. **Licence to us.** You grant the Developer a non-exclusive, worldwide, royalty-free licence to store, process, reproduce, display and transmit Your Content solely to operate, secure and improve the Service and to provide it to you — including, where you choose to publish it, to display it to others: in Community, on your pet's public card and your kennel's page at wolfie.page, in the breeder directory, the puppy marketplace and stud directory, in public pedigree trees and public search, in dog show results you make public, and to the people you share a pet or a conversation with. This licence ends when Your Content is deleted from the Service, except for copies we must keep by law, backups that are overwritten in the ordinary course, and what the Privacy Policy describes (for example Community posts that remain in a discussion under “Former member” after you delete your account).

9.3. **Your responsibility.** You confirm that you have the rights needed to submit Your Content and that it does not infringe anyone's rights or the law. Do not post other people's personal data without a legal basis.

9.4. **Community rules.** Before you first post in Community you are asked to accept the Community guidelines shown in the Licensed Application; individual communities may add their own rules. You must not post content that is unlawful, abusive, harassing, hateful, sexually explicit, misleading, spam or advertising, that promotes cruelty to animals or the illegal sale of animals, or that infringes third-party rights.

9.5. **Reporting, blocking and moderation.** You can report content and users and block other users from within the Licensed Application. Reports are reviewed by the community's moderators and by Wolfie staff; the person you report is not told who reported them. We may remove or restrict content, and suspend or terminate accounts, that breach this EULA, the Terms or the Community guidelines. Where the law requires it (including Regulation (EU) 2022/2065, the Digital Services Act), we inform you of the reasons for such a decision and how to contest it.

---

10. AI features

10.1. Some features use artificial intelligence (for example the chat assistant, reading photos of pedigrees, vaccination booklets, receipts or vet invoices, and generated suggestions). AI output is generated automatically by third-party

models, is **assistive only**, and **may be inaccurate, incomplete or out of date**. Check important information before relying on it.

10.2. AI output is **not veterinary, medical, legal or other professional advice** and does not replace a consultation with a veterinarian or another qualified professional.

10.3. AI features are subject to the usage limits and fair-use rules set out in the Terms; limits depend on your plan, and no plan offers unlimited AI usage. AI features may be used only for purposes related to pets and their care, as the Terms describe.

10.4. How the content you submit to AI features is processed, and by which providers, is described in the Privacy Policy (sections 5 and 5.1), including the fact that content submitted to free or preview AI features may be used by the model providers to improve their models.

---

11. Health information and veterinary disclaimer

11.1. The Licensed Application helps you keep records (health logs, vaccinations, medications, weight, reminders, vets) and provides general information, including breed data and medicine data from public sources. That information is general and may not be up to date, verified or suitable for your animal.

11.2. **Nothing in the Licensed Application is a diagnosis or a substitute for veterinary care.** Always consult a veterinarian about your animal's health, medication and treatment, and follow your veterinarian's advice over anything shown in the Licensed Application.

11.3. **In an emergency** — if your animal is injured, poisoned, struggling to breathe, collapsed or in acute distress — **contact a veterinarian or an emergency veterinary clinic immediately**. Do not wait for, or rely on, the Licensed Application or its AI features.

11.4. Reminders and notifications depend on your device, its settings and network connectivity, and may be delayed or not delivered. They do not relieve you of responsibility for your animal's care.

---

12. Kennel and breeder features

12.1. Kennel and breeder tools (including litters, puppy records, buyer inquiries, reservations, contracts and contract templates, handover packs, kennel public pages and pedigrees) help breeders run their own business. The breeder, not the Developer, is responsible for the content of their listings, contracts and documents, for the accuracy of pedigree and health information they publish, and for complying with the laws on animal welfare, breeding, sale of animals and consumer protection that apply to them.

12.2. The Developer is not a party to any agreement between a breeder and a buyer, owner or co-breeder, does not sell animals, and does not verify every listing. Contract templates are provided as a starting point and are not legal advice.

12.3. **Kennel visibility on wolfie.page.** Whether a kennel appears on wolfie.page is decided by its owner or a co-breeder, who can change the decision at any time in the Licensed Application. A kennel set to private has its page, listings, stud listings, inquiry form and kennel badges hidden at once, without their settings being deleted. Publishing the kennel's page counts as deciding that the kennel is visible.

---

13. Third-party services and attributions

13.1. The Licensed Application uses third-party services, including sign-in providers (Sign in with Apple, Google Sign-In, Firebase Authentication), hosting, diagnostics and analytics (such as Firebase, Google Analytics, Sentry and PostHog), payment and subscription services (Apple, Google, RevenueCat, Stripe), AI model providers and maps. The full list, and how these providers process personal data, is in the Privacy Policy.

13.2. **Maps.** Maps are provided by third-party map services — Apple Maps on iOS, iPadOS and the web application, and on Android the map service shown on the map. Map data, attribution and the providers' legal notices are displayed on each map and are subject to those providers' terms. Do not remove or hide them.

13.3. Breed information and images come partly from public sources such as Wikipedia, Wikimedia Commons and kennel clubs, under their respective licences; medicine data comes from the European Medicines Agency. The attributions are listed under Settings → About → Data sources in the Licensed Application.

13.4. We are not responsible for third-party websites, services or content that we do not control, beyond what the law requires.

---

14. Open-source software

The Licensed Application includes open-source components that are licensed to you under their own licences. Those licences are listed in the Licensed Application where available (Settings → About → Licences) and, to the extent they grant you broader rights than this EULA, they prevail for those components.

---

15. Maintenance and support

15.1. The Developer is solely responsible for providing any maintenance and support services with respect to the Licensed Application, as specified in this EULA or as required under applicable law. Support is available by email at contact@wolfie.app or through the help and support section of the Licensed Application.

15.2. You and the Developer acknowledge that **Apple has no obligation whatsoever to furnish any maintenance and support services** with respect to the Licensed Application. Google likewise has no such obligation.

---

16. Warranty

16.1. The Developer is solely responsible for any product warranties, whether express or implied by law, to the extent not effectively disclaimed. In particular, the Developer is responsible to you under the statutory rules on the conformity of digital content and digital services with the contract (in Poland: Chapter 5b of

the Act of 30 May 2014 on Consumer Rights), which cannot be excluded or limited to the detriment of a consumer.

16.2. In the event of any failure of the Licensed Application to conform to any applicable warranty, you may notify Apple, and Apple will refund the purchase price (if any) for the Licensed Application to you. To the maximum extent permitted by applicable law, **Apple will have no other warranty obligation whatsoever** with respect to the Licensed Application, and any other claims, losses, liabilities, damages, costs or expenses attributable to any failure to conform to any warranty will be the Developer's sole responsibility.

16.3. Apart from the warranties that cannot be excluded under applicable law, and to the extent permitted by law, the Licensed Application is provided “as is” and “as available”, and we do not promise that it will be uninterrupted or error-free. This sentence does not limit the rights of consumers described in section 23.

---

17. Product claims

17.1. You and the Developer acknowledge that the Developer, **not Apple**, is responsible for addressing any claims by you or any third party relating to the Licensed Application or your possession and/or use of the Licensed Application, including, but not limited to:

1. product liability claims;
2. any claim that the Licensed Application fails to conform to any applicable legal or regulatory requirement; and
3. claims arising under consumer protection, privacy or similar legislation, including in connection with the Licensed Application's use of the HealthKit and HomeKit frameworks (the Licensed Application does not currently use them).

17.2. This EULA does not limit the Developer's liability to you beyond what is permitted by applicable law.

---

18. Intellectual property rights

18.1. You and the Developer acknowledge that, in the event of any third-party claim that the Licensed Application or your possession and use of the Licensed Application infringes that third party's intellectual property rights, the Developer, **not Apple**, will be solely responsible for the investigation, defence, settlement and discharge of any such intellectual property infringement claim.

18.2. The Licensed Application, including its software, algorithms, design, content created by us, and the Wolfie and Wolfie.app names and logos, is protected by copyright, trade mark and other laws. All rights in it belong to the Developer or its licensors.

---

19. Legal compliance

19.1. You represent and warrant that (i) you are not located in a country that is subject to a U.S. Government embargo, or that has been designated by the U.S. Government as a “terrorist supporting” country; and (ii) you are not listed on any U.S. Government list of prohibited or restricted parties.

19.2. You also confirm that you are not subject to sanctions of the European Union or the United Nations that would prohibit us from providing the Licensed Application to you. You must comply with all export control and sanctions laws that apply to your use of the Licensed Application. This section applies to the extent permitted by applicable law, including Council Regulation (EC) No 2271/96.

---

20. Third-party terms of agreement

20.1. You must comply with applicable third-party terms of agreement when using the Licensed Application — for example, you must not be in violation of your wireless data service agreement or your mobile operator's terms when using the Licensed Application, and you must comply with the terms of the app store from which you obtained it and of any third-party service you access through it (such as your sign-in provider or a map service).

20.2. Mobile data charges from your operator for using the Licensed Application are your responsibility.

---

21. Third-party beneficiary

21.1. You and the Developer acknowledge and agree that **Apple, and Apple's subsidiaries, are third-party beneficiaries of this EULA**, and that, upon your acceptance of the terms and conditions of this EULA, Apple will have the right (and will be deemed to have accepted the right) to enforce this EULA against you as a third-party beneficiary thereof.

21.2. Apart from Apple and its subsidiaries in relation to the Licensed Application obtained from the Apple App Store, no other person has any right to enforce this EULA.

---

22. Limitation of liability

22.1. We are liable to you under the applicable law for damage that we cause. To the extent permitted by law, we are not liable for:

- damage caused by your reliance on AI output or general information instead of professional (in particular veterinary) advice, contrary to sections 10 and 11;
- loss of data that you could have avoided by keeping the Licensed Application up to date or by exporting your data, where the loss was not caused by our fault;
- interruptions or failures of third-party services, networks or devices that are beyond our reasonable control;
- the conduct of other users, including breeders, buyers and Community members, and agreements between them.

22.2. If you use the Licensed Application for your business (and are not a consumer or a sole trader treated like a consumer under Polish law), our total liability to you is limited as set out in the Terms, and we are not liable for lost profits or indirect damage.

22.3. **Nothing in this EULA excludes or limits liability** for damage caused intentionally or through gross negligence, for death or personal injury, under product liability law, for the conformity of the Licensed Application with the

contract under consumer law, or any other liability that cannot be excluded or limited by law.

---

23. Your statutory rights as a consumer

23.1. If you are a consumer, or a sole trader to whom consumer provisions apply under Polish law (Articles 38a and 43a of the Consumer Rights Act and Article 385^5 of the Civil Code), nothing in this EULA, the Terms or the app-store terms limits the rights you have under mandatory consumer law, including your rights if the Licensed Application is not in conformity with the contract and any right of withdrawal. Provisions of this EULA apply to you only to the extent they are consistent with that law.

23.2. For purchases made through the Apple App Store or Google Play, statutory rights relating to the purchase (including withdrawal and refunds) are exercised through Apple or Google, who sell those purchases. For Wolfie.app Pro purchased on the web, the Terms and the information given at the time of purchase apply.

23.3. If you are a consumer you may also use out-of-court complaint and redress procedures, for example with the help of a municipal or district consumer ombudsman (rzecznik konsumentów) or the Trade Inspection (Inspekcja Handlowa) in Poland, or a consumer body in your country of residence.

---

24. Updates and changes to this EULA

24.1. We may release updates to the Licensed Application to fix errors, improve security, comply with the law or add, change or remove features. Some updates may be required to keep using the Service. We provide the updates needed to keep the Licensed Application in conformity with the contract for as long as required by law.

24.2. We may change this EULA for valid reasons: changes in the law or in the app stores' requirements, changes to the Licensed Application or the Service, or to improve clarity or security. We will publish the new version with its effective

date and inform you of material changes in the Licensed Application, on the website or by email in advance (at least 14 days before they take effect, unless a change is required sooner by law or by an app store). If you do not accept a change, you may stop using the Licensed Application and delete your account before it takes effect; continuing to use the Licensed Application after the effective date means that you accept the new version.

---

25. Term and termination

25.1. This EULA applies from the moment you accept it until it is terminated.

25.2. You may terminate it at any time by deleting the Licensed Application from all your devices and, if you have one, deleting your account. Remember to cancel any store subscription separately (section 8.2).

25.3. We may terminate the licence or suspend your access, after notifying you where the law requires it, if you materially or repeatedly breach this EULA or the Terms, if required by law or by a public authority, or to protect the security of the Service or other users. We may also stop offering the Licensed Application, with reasonable advance notice and without affecting the rights you have for subscription periods already paid for.

25.4. When this EULA ends, you must stop using the Licensed Application and delete it. Sections 9.3, 16 to 18, 21 to 23, 26 and 27 continue to apply.

---

26. Governing law and jurisdiction

26.1. In line with the Terms, this EULA is governed by the law of the Republic of Poland, the Member State of the European Union in which the Developer is established. The United Nations Convention on Contracts for the International Sale of Goods does not apply.

26.2. If you are a consumer, this choice of law does not deprive you of the protection of the mandatory provisions of the law of the country in which you have your habitual residence, and you may bring proceedings in the courts of that country or of Poland, as Regulation (EU) No 1215/2012 allows. Otherwise,

disputes are resolved by the court that has jurisdiction over the Developer's registered place of business.

---

27. Final provisions

27.1. **Language versions.** This EULA is made in English and Polish, and both versions are equally binding. If you are a consumer habitually resident in Poland and the versions differ, the Polish version prevails.

27.2. **Severability.** If any provision of this EULA is found invalid or unenforceable, the remaining provisions remain in force, and the invalid provision is replaced by a valid one that comes closest to its purpose, as far as the law allows.

27.3. **No waiver.** If we do not enforce a provision, this does not waive our right to do so later.

27.4. **Assignment.** You may not transfer your rights under this EULA. We may transfer this EULA as part of a merger, acquisition, restructuring or sale of assets, as described in the Terms, provided that your rights are not reduced; we will inform you of such a transfer.

27.5. **Entire agreement.** This EULA, together with the Terms and the Privacy Policy, is the entire agreement between you and the Developer about the Licensed Application.
